Howard Little got into storytelling while attending Utah State University. He saw a notice about a storytelling scholarship. All that was required was to tell a story in front of three college professors. The last slot for the audition was in 15 minutes. He made up a story on the spot and received the scholarship. To this day, that story has been Howard's favorite to tell. He has since told many personal stories.

Come to this house concert to understand how Howard chooses to remember his life.
